## Newsletter December 2021

Hello ,  
We have got pension news for you.

### SPF Board two days in Limburg

We physically met as Board to discuss various topics on October 14 and 15, for the first time since 2019. Of course, we all took the coronavirus measures into account. We were able to welcome the Accountability Council and the Supervisory Board members as guests for part of the program. During these two away days in Elsloo we discussed matters including the New Pension Agreement and Sustainability and the consequences of this for SPF. We also discussed the consequences of the pension agreement for our service provider, DPS.

### Simplicity is key - also in 'My SPF Pension'

Many of you already know how to find 'My SPF Pension' on our website. And, of course, we're delighted with this. But can we make our portal more user friendly? The member survey conducted previously by SPF showed that you'd also like things to be simpler. As pension fund we're always looking for how we can improve things and this time especially for 'My SPF Pension'.

### Obstacles to a good pension

As in life, there are also some pension obstacles to overcome before you can enjoy your well-earned pension. These obstacles are wide-ranging, from investment risks to cyber risks, which has been in the news a lot recently. But there is also the risk that the fund will not be able to meet member expectations.

## What are your needs?

We would like to know how our members view our services and communication. And where we could improve. A research agency conducted the 'Benchmark Monitor Pension Funds' (BMP) in spring 2021. This showed that, in general, members are extremely satisfied with the fund (see also the [news item article](#) on the SPF website or in the [Newsletter](#) of October 2021). Of course, there's also room for improvement. **What could be improved?**
